Site Review / Building Design Progress:

Thomas Jefferson Elementary

The city requested construction of a sidewalk from the parking lot to the intersection of Glendale and Roosevelt Road. Dr. Frataccia will contact the county surveyor to see who has jurisdiction over the drainage ditch on the north side of the property.

Parkview Elementary

The city asked if water retention could be on the south side of the property adjacent to Wood Street. The water could then drain into the city system. The youth soccer field could be moved slightly north to adjust. There was discussion about separating the entrance for buses and cars on Wood Street. Gibraltar will submit a drawing showing a curb cut on Wood Street for buses only and an island constructed between the school and Wood Street separating entrances.

New Elementary

The building is on schedule to be enclosed by October 25, 2016, with the roof completed by October 27, 2016.

Cooks Corners and Memorial

Precast will be set by September 29, 2016 at Cooks Corners and Memorial.

VHS

Work continues on schedule with STEM walls and corridor ceiling and auditorium demolition. The gymnastics pit will be ready to use the third week in October.

Thomas Jefferson Field House

The floor will be finished next week and ready for use the first week in October.

Nipsco Rebates

The application for the new elementary school will be submitted next week. The school will get rebates for electricity, chillers and boilers. The solar panel will be on a net metering basis and will be reflected in a reduction in the electricity bill.
